StageTime Information

StageTime is the name of the Results program RallyWA use for the 2019 season.

Just Imagine Software created StageTime, updates StageTime, and supports RallyWA when using it.

RallyWA is licensed to use StageTime in 2019.

Notations:

DNS Did Not Start

Usually no times in all SS columns for a competitor

DNF Did Not Finish

Usually no times in some SS columns for a competitor

Missed stages and Allocated/Derived times (often these terms are used interchangeably)

Missed a stage and at fault? Then usually you will be given a time that is slowest time in a competition (eg WARC/Clubman) plus 30 seconds. In this calculation, any times of any ineligible/invitational competitors are ignored. NRC SSR 8(g)

If you missed a stage (or failed to complete a stage) and were not at fault? Then you will usually be allocated a time by the stewards, a time the stewards consider to be the fairest. Often a time comparable to the fastest on stage compared to other stages; sometimes similar to other competitors when compared to other stages. See NRC 7.10 (c), NRC 7.9 (b) (i) & (iv)

If you have any queries, please email results@rallywa.com.

If any information in this results pack is incorrect, please email results@rallywa.com as soon as possible.

Competitors are reminded that they should check the Entry List once it has been published on www.rallywa.com and inform the organisers of any errors as soon as possible.

Please note: For any Ineligible (or Invitational) competitors appearing in the results, no series points are awarded. See www.rallywa.com/points for further information. Or email points@rallywa.com/points for further information. Or email points@rallywa.com/points for further information.

Results Report

- Stage Times were not automatically coming in to the results system. Contact was made with the timing people and access to their website was granted, and results were manually entered.
- Time cards were not very well filled in, making penalties very difficult to discover. Some penalties may have been missed because of this (and the incident at the end of the event).
- There was an incident on SS5 that caused the stage to stop, and this also caused SS6 to stop as well. Because of this, not all competitors were able to do one or both of those stages. Therefore, it was decided that everyone who did not complete SS5 or SS6 was to get an allocated time, the same as the slowest. Initially the Results Team mistakenly gave those without an SS6 time, a slower time, as a competitor's liaison time was accidentally used. This was rectified soon after the event, and CoC Neil then held presentations in the centre of the service park.
- Unfortunately, (due to the internet connection or other reasons) the results after the allocated times
 (and removal of some penalties by the CoC) were not pushed to
 http://www.rallyresults.com.au/warc/2019/karrirally/default.asp. This was rectified early the next morning (before 10:00am).
- A competitor enquiry was received on Sunday to look in to the allocated times for SS5 and SS6. The Results team used a method appropriate to the conditions (number of cars and number of stages already completed) to produce different times for all competitors that did not complete SS5 and SS6, and these were implemented in the days after.
- The Results team also corrected an errant time for car 4 on SS6 accidentally 4 minutes quicker than it should be. We suspect it was a human error and not from the timing system.
